EXPERIENCES

Freelancer, *Sumaré*
Frontend Web Developer
May 2023 - Present

Project: MARKNOW ([Project's Link](#)) (WIP)

- The website is a demonstration of the results of a digital marketing agency, the project has animations with GSAP and many features implemented with JavaScript and React.
- **Tech Stack used: React, HTML, CSS, JavaScript, GSAP e Figma.**

Project: EveryShop ([Project's Link](#)) (WIP)

- The Project aims to show the interface of a shop that sells all types of products, built with components using React. Focusing in a simple and responsive design, but effective.
- **Tech Stack used: React, HTML, CSS, Sass, JavaScript e Figma.**
